

CHRISTIAN COLWELL

Filmmaker

PROFILE

I am a creative freelance producer, director, director of photography, and editor working in commercial, narrative, music, and documentary film-making.

I am the proud owner/operator of a full RED camera package, as well as a lighting and grip kit! I specialize in cinematography, but I have also worked professionally in directing, producing, and editing over the past 6 years.

I love creating images and media that help communicate powerful stories through new ideas and lenses, so let's make something beautiful!
